

Gone For Good

Secure Document Destruction

Secure collection, destruction, and recycling of sensitive documents and information

*Ready,
Set,
Shred!*

SECURITY

Gone For Good adheres to the highest levels of security in the industry. We are members of NAID and the SDA, and our operational policies and procedures ensure a consistent closed chain-of-custody.

SERVICE

Gone For Good offers regularly scheduled service or purge (one-time) service to meet your company's needs.

SATISFACTION

When it comes to the destruction of your sensitive documents, it is our goal to provide you with comfort and ease of mind.

At Gone For Good, we work hard to meet your expectations. All in all, you can rest easy knowing that we:

Save you time and money

Your company does not have to pay employees to shred documents individually at their desks.

Provide no-charge pickup

We have no additional cost to our service besides your quoted price per pickup.

Are environmentally friendly

In one year, Gone For Good will recycle enough paper to save over 18,000 trees.

OPPORTUNITY FOR GOOD

Gone For Good, Secure Document Destruction is a business owned and operated by United Cerebral Palsy of the North Bay. Although we provide the most secure shredding in the industry, what makes us unique is the fact that our program was developed to create jobs for adults with developmental disabilities. In addition, all of the revenue generated from the document destruction services helps to support other programs at UCPNB.
